Balrampur, India

End in 2020

## WORK EXPERIENCE

---

### INTERNSHALA Intern in Remote Mode

Web Development Engineer Intern

Gurgaon, India

Jun 2023 – Aug 2023

- Obtained an increase of **98% user** satisfaction by implementing the website's **UI/UX** design to meet the project's criteria.
- Employed advanced frameworks such as **ReactJS**, **Redux**, and **Tailwind CSS** to create a responsive web page that adheres to the designs specifications while elevating user experience and increasing engagement **by 60%**.
- Improved the usability of current applications up to **75% by** implementing the most up-to-date accessibility standards and integrating best practices.

### DUPLEX TECHNOLOGIES Intern

Full Stack Development Intern

Lucknow, India

August 2024 – Feb 2025

- Engineered, tested, and successfully deployed a user-centric website enabling seamless purchases of game servers, enabling immediate utilization and boosting efficiency **up to 90%**.
- Formulated the website's **backend** using **NodeJS**, leading to a **55% reduction** in page load time, while the frontend has been solidly developed using state-of-the-art frameworks like **ReactJS**, **Redux**, and **Tailwind CSS**.

## PROJECTS

---

### BLOGGING WEB APPLICATION

Sep 2024

- Developed a full-stack blogging platform enabling users to create and read blog posts. Implemented a secure authentication system using **JWT** for user login and role-based access control.
- Designed RESTful APIs with **Express.js** for smooth communication between the frontend and backend. Integrated MongoDB for persistent storage of user data and posts.

### WORLD TOUR SITE

Dec 2024

- Built a dynamic, multi-page travel website showcasing various world destinations with seamless navigation and interactive user experiences
- Utilized **React 19** with React Router DOM to implement smooth client-side routing and Axios for real-time API data fetching.

### SCATCH- E-commerce Web Application

Feb 2024

- Developed **Scatch**, a fully functional e-commerce website that provides a seamless online shopping experience. Designed and implemented reusable UI components with **EJS** and **Bootstrap**.
- Designed and integrated RESTful APIs using **Node.js** and **Express.js** for product management, user authentication, and order processing.
- Implemented **JWT**-based authentication for secure user login, registration, and authorization flows.
